

## FY23 Community Project Funding Requests

**DEADLINE: April 20, 2022**

Chairwoman Rosa DeLauro announced that the House Committee on Appropriations will be soliciting Community Project Funding (CPF) requests from Members in addition to the standard programmatic and language-based requests for Fiscal Year 2023. Each Member is limited to **15** Community Project Funding Requests across all subcommittees for FY23. There is no guarantee that all Member-requested projects will be funded. The FY23 CPF process has a limited scope with combined earmarks capped at 1 percent of all discretionary spending. **Eligible accounts are restricted to those listed in the table below.**

More information on the process can be found on the House Appropriations Committee's page [here](#).

Please note that only state and local government entities, public institutions, and non-profit entities are eligible to submit and receive funding through CPF. Funding cannot be directed to for-profit entities and will not include waivers for State or local match requirements. While matching funds do not have to be in-hand prior to the request, requesting entities must have a plan to meet such requirements for the project to be viable. Additionally, each submission must be for FY23 only and cannot include multiyear funding requests. The Committee will only consider projects with demonstrated community support in the form of: letters from local elected officials; press articles highlighting need; support from newspaper editorial boards; mentions on State intended use plans, community development plans, or other publicly available planning documents; resolutions passed by city councils or boards; etc.

Staff may follow up for additional information to support the CPF request such as budget justification, documentation of community support and need, or proof of ability to meet match requirements once an initial request is submitted. If you have any questions or concerns about submissions or the overall CPF process, please reach out to [Scott.Abrams@mail.house.gov](mailto:Scott.Abrams@mail.house.gov) or [John.Alford@mail.house.gov](mailto:John.Alford@mail.house.gov)
